Title:

Comments: The current buildings should be restored in a manner to reflect the current amount of use. A large commercial change that alters the historic, serene, accessible, use of this area will unduly alter the experience. This is public land and a gateway to the wilderness and the nearby waterfall I've hiked to that many times

I know there are reports that you have made up your mind and will not consider public input. But, our land should be better protected from this large commercial use, that will forever alter the nature of this wonderful site.

Please reject the proposal that just does not fit this place.
