Title:

Comments: please do not allow another out of state developer to change the nature and status of holland lake lodge. this has happened too often in our state, and always shuts out the people that have been going to the lake for many years. dont need another Paws Up ranch in this serene and beautiful landscape. do not shut out the people that live here, recreate here and work here. too many of our beautiful places are being locked up, no access, no locals. DO NOT LET ANOTHER CORPORATION FROM OUT OF STATE define our values or shut us out. i have been going to holland lake more than 40 years now, dont shut us out!
