Title:

Comments: I completely support this Proposal. Holland Lake Lodge is a treasure I have visited many times. It served as host for all families associated with my daughter's wedding in 2016. For sometime, I have been acutely aware that the Lodge and its cabins are in very unstable condition and as a business concern, is not able to generate enough money to source the major repairs and infrastructure updates needed to preserve it. As I understand it, the new Proposal will shore up the Lodge itself for year round use, build another building for additional rooms, new cabins, as well as housing for the much needed service staff as well as updating the well and sewage system without using more land than what is currently being used for the existing business. The Lodge will not exist if some major renovations and reimagining do not happen. Of course, the top priority needs to be supporting a Plan which will not destroy the magic of visiting in close proximity to such raw beauty a short hike from a Pristine Wilderness with guest amenities attractive to visitors from all over the World with out becoming the Star of the landscape. Having Holland Lake Lodge be environmentally responsibly reinvented with a very modest footprint increase is absolutely the perfect rescue for what quite shortly may be gone. Please approve this Proposal. Thank You, Laura T Birrell
