First name: Linsey

Last name: Hollow

Organization:

Title:

Comments: I strongly oppose this expansion. The expansion will make a rustic and peaceful place to camp into a loud and busy construction site for too long and it will make it difficult to enjoy the area with so many people around detracting from the peace. This expansion is way too large which will require significant destruction of animal habitat in the region. Allowing for so much traffic will have negative impacts on all the wildlife in the region due to loss of habitat, increase human traffic, noise, and probable pollution. Please do not put money before the environment.
