Comments: I do not agree nor support the "improvement and expansion" project of Holland Lake Lodge. How is Montana supposed to stay the beautiful state that we know it as if we let out of state buyers come in and take over and change the way of our life? The prices will sky rocket so high that people that have lived here for many generations won't be able to afford and enjoy their own backyards. Please don't let Montana become a Park City, UT. There is sky documentary that I love to watch and there was an interview with local people from Park City and they were in the same position that we are in before they sold to big investors and they said their town was never the same. Please don't let out of state investors ruin our Montana.
