First name: Kiley

Last name: Wensel

Organization: Clark Family Ranch

Title: Owner/Treasurer

Comments: I am writing this letter to voice that I adamantly oppose the expansion of Holland Lake Lodge. There are several reasons why expanding the lodge to the degree that POWDR proposes is a horrifying idea. The scale of the expansion demolishes the history of Holland Lake, increases traffic in the area, strains existing minimal resources, and pushes out abundant wildlife.

The last thing I/we want to see while at our family ranch is hundreds of tourists who don't respect the Holland Lake area and what it truly means to the families who call it home. The ranch is not just a place we visit on vacation. It is a place our Grandparents had the forethought to purchase decades ago for us to enjoy forever after they passed. It's where we find peace after a busy week, where we fish and hunt and learn what true Montana grit is stepping out the back door into the Bob Marshall. Holland is a place we proudly named our children after.

There is nothing POWDR nor Christian could build that would in any way "benefit" us as locals in exchange for demolishing the history, contaminating the lake, increasing the carbon footprint, and irreversibly changing the landscape, now or for future generations.

This is the wrong place for your resort.
