Title:

Comments: Hello USFS,

I am writing with deep love for one of the last undeveloped gems in the United States, a place where I take my daughter swimming and where I go backpacking to feel briefly unburdened by the restrictions of human-imposed trammels. I adore Holland Lake, a small piece of heaven on earth. I adamantly oppose the proposed ski development as it will impact the quality of public opportunity for many people like myself who need to rejuvenate our souls and escape the increasing barriers posed by income inequality. Please stop this development and keep space for people who love wildlife, who need public lands to stay open to people with lower income levels, and who need freedom from restraints posed by yet more permanent human impacts on wild spaces.

Thank you,

Kathryn Khumalo
