Comments: To whom this may concern:

I am devastated to hear this news about Holland Lake. This special book of Montana has been a part of my childhood and now adult with so many family memories at the lodge, the cabins, camping, day picnicking, and just a stop through to take in the Montana magic on my drives by. Please keep this place sacred. It's one of the few truly wild and special little lakes left for families to experience true Montana. As a Montana native of 44 years, this is a gem. This is a place that should be kept wild and true for families for generations to come. Please don't let this be another money pit. This is too special not to say something. A heartfelt plead to keep Holland Lake the way we all love. Thank you.

Amy Leary - Long-time supporter of this rare Montana escape.
