Comments: I very much disagree with this proposed expansion of the Holland lake lodge and area. The sidestepping of the rules is wrong and should set off alarms for everyone. Holland lake is a small body of water and at risk when moneyed interests bypass the permitting process for what looks like profit.

This jewel of a lake should be protected at all cost. I don't want to see this proposal move forward, but at the very least, it should follow the rules set up to protect our wild areas.
