Comments: The beauty and magic of Holland Lake is its rustic surrounding with limited traffic (water and road) and people. We do not support the proposed Holland Lake Lodge expansion due to its large scope and inevitable commercialization of the area and negative environmental and recreational impact. Holland Lake remains one of Montana's (specifically the Seeley/Swan Valley) sweet and pristine secrets. This project would ensure that fewer Montanans could enjoy this treasured spot in our back yard. Please listen to the voices of local Montanans who want to protect and preserve this area for years to come!
