Title:

Comments: This should not be allowed to continue. At a minimum an EIS should be submitted. As a native Montanan I am appalled by the corners that have been cut and the magnitude of this project with the potential to destroy a pristine area in the name of profits. Every aspect of this project should include the environmental impact and a long term impact plan to safeguard the area. There's no need for a commercial resort of this scale that will negatively affect the area.
