Comments: Holland Lake is one of my favorite lakes in Montana & we try to visit several times a year. My husband & I are very much opposed to this proposed development & expansion because we believe it will destroy the environmental beauty & sustainability of this Montana treasure. The buildings on the Lodge property are old & in need of repair but we believe they can be repaired or replaced on a much smaller scale. Christian currently has a difficult time finding employees to work there now as the Guest Shop is often closed & so I find it hard to believe that he & Powdr will find enough employees in the area to maintain the proposed larger facilities. The danger of the project to the wildlife & landscape that surrounds this property is probably what bothers us most if this development is allowed to continue & so please consider our opposition & refuse this unnecessary expansion.
