Comments: My family has been visiting/ camping at Holland Lake for almost 20 years. My son attended U of M in Butte School of Engineering when we discovered this piece of paradise. We enjoy the beauty , the campground (as it is) even as it has become busier over the years. We loved canoeing , then kayaking & now SUPs on this gorgeous lake. We live in a beautiful part of BC also- Kimberley, which has shown significant growth & buildout of most of our lakefronts. There has never been a buildout that benefits local residents or backcountry tourism. My husband is a retired fisheries biologist & has battled the constant threat to water * terrestrial wildlife for over 40 years. Please keep Holland Lake the gem it truly is, once developed it will change forever, as evidenced by your nearby Seeley, Swan & Flathead Lakes. As non Montanans we love spending our holiday time in Montana & especially appreciate Holland Lake.
