Comments: Holland Lake does not need more people crowded onto it. With enlargement of the Lodge facilities, there will be more motor boat and jet ski activities. The trail to the waterfall is also crowded and there is eroding of the viewing area.

We understand the need to upgrade buildings, but not to create a resort atmosphere. Holland Lake is a place to relax with nature, not become a water sport play area. Campers at the FS campground hear motors constantly during the day as it is now. Canoeing is almost a dangerous sport.

A one story lodge and half the proposed cabins would be plenty for the lake. Let's keep the lake clean, the noise level down and teach people to enjoy the surroundings nature gives us.
