Comments: I strongly object to the proposed Holland Lake development project. I use the lake frequently to kayak and swim. I also hike in the area. This is a lovely, low key place. To develop it into a recreation resort for wealthy out of state types would be a disaster. We have already lost Chico Hot Springs to development for wealthy out of state types. They don't live here or care about the natural beauty, the birds and wildlife, the forests. There will be crowds, parking lots, noise, and who knows what else. It would vastly downgrade the camping experience. Let the wealthy out of state types go somewhere else.
