Comments: It is our job as Montanans to preserve the natural beauty of our state. I'm 23 years old, a fifth generation Montanan, and I want to enjoy the same beauty that led to my family domiciling here for so long. With Bozeman and Missoula gentrifying we need to protect the rural areas that allow for us to get away from busy life. Tourism in Montana is fantastic for our small businesses and economy, but preservation of the public lands in Montana prevails in priority. Public lands are our greatest asset as montanans.
