Comments: I am 100 percent opposed to the proposed project at Holland Lake Lodge. Not only will there be an impact on the environment, it will also impact the character and charm of this beautiful and peaceful area. The proposed project is just too large! We are not Colorado, thank goodness, and to build a large chic Colorado-style resort is not in line with what makes Montana special. The problem with a resort like this is that its amenities will only be affordable for the richest Montanans and out of staters. As a native Montanan I have wonderful memories of a stay at the lodge a few years back and yes it was affordable for someone on a teacher's salary. That won't be the case with the new facility. Too many visitors and increased traffic will change the existing character of Holland Lake. Let's put quality of life ahead of greed!! Don't rubber stamp this project!
