Comments: If this project does not move forward Holland Lake Lodge may be lost to all of us. The plan is environmentally sustainable and will use a fraction of the recreation land that is owned. The buildings will be given foundations and restored where possible. Holland Lake is about outdoor recreation and I do not see this plan changing any of that.

What I would like to NOT SEE on Holland lake is motorized power boats and jet skis. We have an idyllic setting, lets not damage it with noise pollution.
