Comments: Please limit the development of Holland Lake lodge, There are so few places that remain so calm and peaceful that allow my Children and Grandchildren to experience a bit of what nature was like for me as a child. I understand the need for economic growth for the lodge. I think it is a great lodge, A few new cabins could be added without the commercial impact the the area. I do not see the need for a new lodge. Please limit the use to protect the area. Humans cannot consume everything. Thank You, Martha Jaquith.
