Comments: Dear Forest Supervisor Steele - I am writing to oppose any expansion of the Holland Lake Lodge in the Seeley-Swan. Given the unprecedented growth Montana is experiencing this type of expansion of high cost private use of public lands by corporate developers is exactly what should not be done. Preserve the public lands for the public who cannot afford exorbitant developed property rates. Why on earth would you allow a Utah development company to exploit our public lands for profit rather than; preserve them for public use?

Respectfully
