Title:

Comments: Please save Holland Lake. Save the wilderness. Save the animals who inhabit this area even long before the original lodge was built. Don't turn this into another Big Sky Resort that pushes the locals out. This is a beautiful hidden gem. Yes, I understand if it needs some upgrades, but that shouldn't include tripling the size, or turning to out of state investors who only want to profit, and don't care about the environmental impact. They do not live here!
