Comments: This is too big an expansion for such a beautiful place. There is also a campground at Holland lake and it seems everyone has forgotten the impact this would have on the camping experience. This expansion would bring a lot more people, negatively impacting the quiet and serenity of this beautiful place. I get the resort needs to make money to survive, but repairs and maybe a smaller expansion seems sufficient. Let's not sacrifice the experience of nature for the average Joe with a tent or trailer for the profits of a big outfit like POWDR.

Thanks
