Title:

Comments: Absolutely not. Nobody wants this lake developed! It's out in the middle of nowhere and quite like all of us MONTANAN'S like it. We all respect it and have no wants or needs that require developing the lake. If out of staters can't learn to camp out in a tent without wifi then leave montana. This lake is near and dear to my family as it is the first lake we all went to with our grandparents as soon as we could walk so no absolutely not. Nobody has a right to it. It's to be enjoy and preserved. Plain and simple.
