Comments: I strongly object to the current proposal to expand the Holland Lake Lodge facilities, especially to such a major extent. This sounds like the kind of mega-development that would be appropriate to Lake Tahoe or any much larger lake, but it is simply too much as is and will basically destroy the beauty and magic of Holland Lake. This is not a responsible or equitable use of Forest Service lands and this ill-conceived project should be stopped in its tracks so that all Montanans can continue to enjoy this unique and distinctly Montanan gem now, as well as in the future.
