Comments: I am despondent to think of changing Holland lake by bringing in commercial business, noise, interference with the natural elements abounding there. Yes I'm concerned about the fish damage by offshore activity. I'm concerned about the wildlife. But mostly I am concerned about the possible loss of one of the most beautiful, Tranquil and gorgeous places I've ever seen. My children were married at Highland Lake Lodge. We often go there as a family. I'm crestfallen to think that business can cause such loss.
