Comments: Holland lake has a beauty to it that has and should remain natural, peaceful, and unique.

When you consider other recreational, public lakes in Montana... they are very populated.

This leads to more waste, disruption to wildlife, and more development and tourist direction. Adding 30-40 people daily to the lake will overcrowd. The natural beauty of Holland lake should remain the way it is; quiet, peaceful, and sacred to Montana locals and Swan Vally residents.
