Comments: Holland Lake has been the main place my family has made majority of our memories growing up. Whether it was a wedding, birthdays, camping, hiking to the falls, ice fishing, or just coming for the day it was never a dull moment to visit Holland Lake. My late Grandparents are the ones that introduced Holland lake to us and at a young age we would rent the cabins available. Later on when there was too many of us we resorted in Bay loop where we would play flashlight tag and frog hunt all evening. Now as my generation grows up more we stayed in Larch loop and camped for up to 3 weeks or moved spots and stayed for four! We couldn't get enough of the lake. It was our secluded oasis, secluded beautiful home away from home. Times are changing, money + power is taking over our memories that are be taken over by the wealthy. I hope we can keep Holland lake just the way it is. If one grew up going to Holland lake for 20+ years they would hopefully understand why it doesn't need to change. Some places are better untouched or remodeled! Thank you. I hope this is read and taken into consideration!
