Comments: I've spent a lot of time up at Holland lake over the years and have enjoyed the natural escape it gives. Commercial development at the lake would absolutely ruin the serenity and peace that the lake offers. Wildlife will be displaced and out of state developers NEVER have respect for the land and the things that make Montana so amazing. If they develop on Holland lake then that area, it's community, the greater community, it's wildlife, and it's appeal for Montanans to enjoy Holland lake will be destroyed. PLEASE do not let them do this.
Thank you
