Comments: I grew up in the Swan Valley and spent a lot of time on beautiful Holland Lake. Whenever I return to Montana to visit, I take my family there to show them the peace and tranquility I grew up knowing on a daily basis. We're talking about retiring there in the not to distant future mostly BECAUSE of the slow-paced lifestyle, free from too many tourists and business. I understand that Condon makes a lot of revenue off of tourists, but I genuinely believe that to build a resort on Holland Lake will completely ruin the draw of this town. It would definitely affect our decision to move back that way.
