Comments: Please do not allow the Holland Lake lodge to be changed to a "resort style" lodge. The increase in size and capacity would ruin the aesthetic of the area. I remember going there in the 1960's as a child in my parents old tent camper, and it was wonderful. I have been there in the recent years and it already seems so different and crowded. I know this is a fact of life with the increase of population and love of the outdoors. It doesn't have to mean that we have to keep making everything bigger and more intrusive, I am more than happy to wait my turn to recreate if it means the experience is less crowded. Please don't ruin holland lake, bigger is not always better. Thank you for your time
