Title:

Comments: I support this project. I have full confidence in the agencies responsible for approval and ongoing oversight. They have the ability to ensure the project is properly scoped and the developers will fulfill the requirements as approved. An idea that has been surfacing in other developments is to provide reasonably priced buildings, cabins, or rooms so guests with various economic backgrounds will be able to enjoy the facilities. Another suggestion is to include campgrounds so others not wanting to stay at the facilities will still have access to the lake and surrounding trails and property.

Thank you.
