Comments: I do not support expansion of the Holland Lake Lodge. That ecosystem is simply too important to risk damaging, and the habitat loss caused by the expansion would most certainly be harmful to the delicate ecosystem which borders the lodge. Please keep the historic nature of the lodge and the beauty of the surroundings intact by not expanding the lodge. Perhaps a compromise could be found, in which the lodge has some upgrades, but is not expanded. If not, then I am in favor of the lease being retired and the lodge becoming a historic forest service rental.
