Comments: Holland Lake and its natural surroundings are a treasure. The Holland Lake Lodge owner maintains he has the right to maximize his USFS permit to build more structures, attract more people year-round and make more money; but this would be at the expense of the people who love it the way it is, the needs of the wildlife who live there and the values of the surrounding natural areas. I oppose this proposed development which will forever change the nature of the area. As a stakeholder in the management of our federal public lands, I believe the significance of this proposed project requires the preparation of a full Environmental Impact Statement which will completely, and transparently, consider ALL the impacts of this proposed development and allow public input.
