Comments: As a guest to Holland Lake to a long time owned family cabin I can attest to its serene and commercially unspoiled beauty. Increasing facilities without environmental review in regards to wildlife, water, and land use is irresponsible and unacceptable. USFS is allowing a gateway to the Wilderness to be potentially spoiled. Stop this proposed project now or do the right thing and conduct an environmental review before building. Why the rush? I know, we all know, this isn't in the lands best interest but in the interest of greed.
