Comments: I fully understand the concept of the expansion. However, the lake, roads and infrastructure to handle the volume. Montana is now the new Santa Barbara all at the expense of local Montanans. The Holland Lake is a real gem and has NO capacity to handle the extra volume. I vote NO to allow this being a native Montanan how has been enjoying the simple pleasures of Holland Lake for over 40 years. Montana is the Last Best Place if we don't screw it up!!
