Title:

Comments: I lived in Whitefish for 20 years in the 80's to 2003 and had to leave because the "City FATHERS" were more focused on selling our waters, mountains to the highest bidders. I saw generational families loose their home for maga mansions to be built. Forests destroyed, mountain tops removed causing our basement to have land slides. [we lived below Big Mountain.]

We do not need to destroy more of the beauty we have in Montana! We need to become guardians and protectors of our precious "last great place". This is not a new story...it is evidenced all over Mt what has happened to our enviornment and communities.

DO NOT CONTINUE THIS PRACTICE OF SELLING OUT TO THE HIGHEST BIDDERS AND KILLING OFF WHAT CAN NOT BE REPLACED. WE NEED OUR TREES TO BREATHE! SCIENCE 101.
