First name: Dean

Last name: Johnson

Organization:

Title:

Comments: No to Holland Lake Lodge expansion. The Swan Valley and this specific site is not appropriate for such a huge recreation complex. Especially in the absence of a proper EIS. What is the deal USFS? For and organization such as yourself that usually makes decisions and moves at glacial speed why is this project being pushed through without proper environmental review? I'm guessing your financial gain to lease the property would be substantial at the expense of Montana and Montanan's. The last thing Montana needs in another playground for the super-rich, that benefits the super-rich.
