Comments: This is land to be shared by everyone, not just those who can pay for an expensive resprt. It is sacred land and needs to be left untouched. We as humans continue to expand into the homes of wildlife and for an are like Holland Lake, well this is as special as it gets. I have many childhood memories camping at Holland lake and enjoying the hike up to the falls. I want my children to have the same. Let's leave the area untouched for our children and their children to enjoy. I see places like Holland lake as a treasure that we need to hold near and dear to our hearts. Why do we need large resorts to enjoy nature? Please keep it the way it is, small and quaint and pristine.
