Title:

Comments: As an addendum to my previous comments, which were scientifically sound but perhaps not clear in their conclusion, I want to make it clear that I oppose both the current expansion proposal for the permitted Holland Lake Lodge, and also the existing or future intended leaseholder, POWDR Corporation, who have shown in their historical business ventures and public dealings that their developments routinely show a blatant disregard for public lands, for the local communities, and for the environment surrounding their resorts.

I urge the Forest Service to reject the proposal outright, and consider revoking the lease to the Holland Lake Lodge area.
