Comments: Hello, and thank you in advance for your consideration of this comment.

My family and I own property on Lindbergh Lake, across Hwy 83 from Holland Lake. I'm part of the third generation of owners. Our little cabin is pretty much the same as it was over 50 years ago when my grandpa built it.

This area - the entire Swan Valley, Flathead and Lolo National Forests, is replete with beauty, wildlife, clean air and water. I have countless treasured memories here. Obviously the owners of property in this unspoiled part of Montana want to keep it that way. We trust the Forest Service will do what's best for this and future generations. Therefore, I beseech you as the responsible project official to ensure that a thorough environmental impact study be done before a large corporation be allowed to construct an expansive development in such a sensitive and pristine spot.

Sincere thanks.
