Title:

Comments: As a local resident & public lands user, I am very interested in the future of Holland Lake. I ask that as you review this proposal and the process be transparent & thorough. I recognize the increasing recreational pressures we now see and know that in order to have a viable business at Holland Lake, a lessee will need to provide the amenities that people want now. I believe a reasoned balance can be achieved through a thorough and open public process. The Flathead NF needs to be a leader to accomplish the balance and frankly they are off to a poor start.

The public is watching and expects a professional unbiased effort.

Sincerely,

Ted Mead
