Comments: Please do not allow for the expansion on Holland Lake. Montana is being eroded away as more people find how incredible this state is. Please do not allow the scenic beauty of the lake, its shoreline, and the surrounding landscape to be altered for the sake of bigger and more.

Holland Lake is rare and unique as an incredible assemblage of native wildlife species that, unlike nearly all other places in the lower 48, has persisted since the time of Lewis & Clark not to mention its near-pristine water quality.

Save Holland Lake, please.
