Comments: I write to simply ask that there is a full environmental review of the proposed or revised project. I fully support the lodge owners using outside investment to make needed maintenance and even expansion of the lodges. The area is magical and the lodges provide unique access for their guests. I understand the outside investor will need sufficient services to obtain a return on investment. But my only concern is whether the current project has been evaluated for its impact on the environment. This project I think has gained significant attention and perhaps outsized attention as a proxy war between growth and preservation. I hope our leaders take the lead from other communities that succeed in recognizing that smart growth that has a softer environmental footprint may be a creative solution that can give a little to each side. Best of luck. I know the decisions ahead will be difficult.
