Comments: We support the much needed renovation of Holland Lake Lodge and cabins. But the project should be scaled back considerably. We think a 28 room lodge would be suitable for the property and no more than double the number of existing cabins. The lodge has a long history in the valley and can be a real asset, but it is in such bad shape that many will not stay there. The density of the proposed redevelopment is not in keeping with the historic use of the leased property and is inconsistent with pristine nature of Holland Lake.
