Title:

Comments: How will this project affect local housing prices.

How will this project affect the access to the Bob Marshall. What will the ecological impact be for the Holland Lake. Will the project reduce access? Will it be out of price range for the normal working class individual in Montana? How will the project affect the local wildlife? And while it may produce jobs how many of those will be high paying? Everybody loves Montana, the unfortunate part is that they want to make it just like where they came from. Therein taking the uniqueness of Montana and eliminating it.
