Title:

Comments: After reading the changes/upgrades of this proposal I don't see a significant benefit to the area, including local businesses, or population. The only significant benefits will be to the investors at the expense of the beauty of Holland Lake, the surrounding pristine wilderness, and wildlife.

What are the long-term costs/impacts on the wilderness? Starting with the increase of road expansions, maintenance, and expansion of the infrastructure just to support this venture will result in additional loss to the wilderness and wildlife.

Again, WHO will really benefit from this venture, the local population, and businesses, the state, or the investors?
