Comments: I have family that lives in that area. We visit three to four times a year. Enjoy ice skating and fishing in the winter, swimming, paddle boarding ect.. in summer. Hiking, fishing any time of year. I would hate to see such a beautiful, majestic, serene place, be ruined by this type of development. I visit so often, for those reasons. And I love seeing the wonderful wildlife in the area. So sad to destroy where they are accustomed to live.
