Title:

Comments: Good day. My name is Duane Moe and I am writing in comment over the proposed activities at Holland Lake Lodge. I am a lifelong Montana resident and U.S. Forest Service retiree, having spent 17 of my 31 years on the Flathead National Forest. I am very familiar with the Holland Lake area. This extremely sensitive environment has survived only because it has not been overused. The proposal for expansion with POWDR, Inc., is unacceptable in it's scope and must be scrutinized with an extensive Environmental Impact Statement. Categorical Exclusions were never meant to be used to justify this type of extensive project. Please see that an EIS is pursued and that the public is allowed to comment on all phases of this analysis. Sincerely, Duane N. Moe
