Comments: I am against this extravagant increase in development of the Holland Lake Lodge and surrounding area. Public lands need to be protected, the multiple animal species, the serene outdoors, the things that make Montana the last best place. This is not private land, enough of that is already being over developed. Please be good stewards of this public land, and do not allow a corporation to come and try to remodel Holland Lake into something it isn't, and that Montanans don't want it to be. Thank you.
