Comments: This is absolutely absurd. I have enjoyed this beautiful, public land since my childhood. I love everything about it's small feel and preservation. This is a place I want to be able to take my children and grandchildren. This land should not be exploited for greedy people to make a rich getaway. This is our way of life, our home. I lived at 384 Terrillion lane during my childhood, my mom died there and my sister purchased the property. Holland lake is our backyard, a place we enjoy serenity, peace and the beautiful landscape Montana has to offer. Please stop this invasion on our lands and our way of life. This thought is absolutely egregious.
